At the last meeting of the city council the city attorney gave his advice that there were no decisions regarding the establishing of city boundary lines that would warrant Price city going ahead and attempting to establish lines not in conformity with the plan now on file and recorded. The macaroni factory will shortly be dismantled of its machinery and remodeled for a hotel and bar and for lodge rooms for the different orders to which the Greeks belong. The proprietors of the new business are Chas. Johnson, Nick Mekla and Cosmo Adranopolis. The property has been leased for a term of years at a price which will show excellent returns on the original investment. The machinery, which is the highest class in use in macaroni manufacture, will be sold. After about a year's run the proprietors feel that this is too limited a field to continue the manufacture of the product and that they are doing the wise thing by using the property for some other purpose.
